

Nordic EUS 2018

Copenhagen

12 – 13 November 2018

Welcome to the 3rd Nordic EUS Conference!

Welcome to the 3rd Nordic EUS Conference!

The 3rd Nordic EUS 2018 will be held in Copenhagen at Herlev University Hospital 12 – 13 November 2018.

The conference programme will include both international and Nordic keynote speakers and consist of live demonstrations on day 1 and hands on training on day 2.

Parallel to this, a pathology session will be arranged with theory and microscopy demonstrations. The aim of the conference is to offer endoscopists and pathologists a wide spectrum of basic EUS and pathology theory as well as hands-on training on dummies and simulators.

We welcome participation from the industry and their help with training modules such as modules for drainage procedures and EUS-guided biopsy.

Programme topics

- equipment and procedure
- anatomy interpretation
- fine needle biopsy and core needle procedures
- indications of EUS and EUS guided biopsy in gastroenterology
- evaluation of cystic pancreatic lesions
- evaluation of solid pancreatic lesions
- EUS of submucosal tumours
- EUS of the mediastinum – what the gastroenterologist should know
- staging and resectability evaluation of upper GI cancer
- guided injection (PCN, Fiducials, alcohol and chemotherapy) and RF therapies
- guided drainage procedures
- the role of elastography, Doppler and echo contrast examinations
- interpretation of EUS cytology and micro core histology

Venue

Herlev Hospital
